

Clean Slate Solutions

Compassionately transforming lives

I managed to discover Clean Slate Solutions around 6 months after I had been released from HMP Kirklevington Grange. At the stage, my confidence was shot and had nothing but rejections on the employment side of things, I was struggling I have to say.

For the first time in quite a long time, when I was talking to the team at Clean Slate Solutions, I started to feel as though I was not in this battle on my own and they were genuinely wanting to help me!

They even allowed me to open up on my dreams and aspirations in terms of employment which was to somehow gain employment in the Gambling Addiction Industry, providing help to support those with a Gambling Addition.

First things first, however, I just needed a chance, a job, a form of income and opportunity to start rebuilding my confidence.

They managed to get me my CSCS card funded which led to an almost immediate start in the Construction Industry. Finally, my life was started to turn around!

When the pandemic started, I managed to land my second role in a Supermarket much closer to home which allowed me to start dealing with customers again which helped me tremendously.

The support from Clean Slate Solutions was always there for me. It is brilliant to know that they are always there.

At the start of 2021 my dreams turned into reality and I landed a role as a Peer Support Mentor for a Gambling Addiction based charity.

I honestly could sense the happiness of everyone in the team at Clean Slate Solutions and that meant the world to me.

Thanks very much to everyone involved! You have made such a difference to my life.
