

Clean Slate Solutions  
Compassionately transforming lives

“

Without support in gaining employment and resettlement I would have found life very difficult and challenging. Working and having your own space gives you a sense of wellbeing, I have regained my own family's trust and respect which has allowed me to return to normal life.

Without Clean Slate Solutions none of this would have been possible, Richard has been a guiding light offering not only physical support, but emotional and mental guidance – without this I would have broken down.

”
